

Dear advisors,

While this is something new, we believe it will help other advisors and new advisors, as well as guide the National Executive in setting their goals for their upcoming term. The presidential reports are excellent, but advisors offer a different and necessary perspective.

We invite you to use the following outline as a template for your upcoming report to the National Executive for the Annual General Meeting (to be distributed to the advisors only and National Executive).

While the president's report is more quantitative, providing a basic understanding of the local and its environment, the advisor's report is meant to be qualitative – analytical and evaluative. As advisors, you are able to see the bigger picture, aware of how policies and procedures are being adhered to.
